## WORM CHOW EARTHWORM FEED

**DIRECTIONS FOR FEEDING:** Feed earthworms daily or adjust feeding schedule to management program. Sprinkle the bed lightly with water and scatter the feed lightly over the bed surface. Adjust the amount of feed to what the worms will consume daily. When redworms are raised in bedding which contains composted organics (food items, manure, etc.) decrease the feeding rate. Be sure the feed is consumed before adding more Worm Chow. Overfeeding may lead to undesirable sour, moldy bedding.

### CAUTIONS:

Do not sprinkle either the feed directly on the worms.

Store feed in dry, well ventilated area free from rodents and insects.

**Use only as directed**

**INGREDIENTS:** Ground corn, ground soybean hulls, wheat middlings, dehydrated alfalfa meal, cane molasses, dehulled soybean meal, calcium carbonate, porcine meat meal, dicalcium phosphate, monocalcium phosphate, ground oats, ground wheat, fish meal, dried beet pulp, wheat germ, corn gluten meal, salt, soybean oil, porcine animal fat preserved with BHA, folic acid, choline chloride, DL-alpha tocopheryl acetate, riboflavin, pyridoxine hydrochloride, nicotinic acid, menadione dimethylpyrimidinol bisulfite, calcium. pantothenate, cyanocobalamin, vitamin A acetate, manganous oxide, zinc oxide, ferrous carbonate, copper sulfate, zinc sulfate, calcium iodate, cobalt carbonate.
